Help Shape the City's DEI Priorities

Your participation is critical to ensure we identify where improvements are needed. Your experiences and aspirations will directly inform goals and strategies that the City puts in place to deconstruct institutional barriers to inclusive outcomes.

You will have an opportunity to discuss:

- Your personal experiences in Wilsonville, whether you have felt a sense of inclusion and belonging or exclusion and othering
- Steps the City might take to address barriers to inclusive outcomes
- How the community might participate in the long-term collaboration to improve Wilsonville
