### NOTICE OF INTENT TO SOLE SOURCE

City of Wilsonville

The City of Wilsonville, Oregon selected a sole source service provider, Policy Confluence, Inc. d/b/a The National Research Center, to conduct a biennial citizen survey as allowed by ORS 279B.075. The City of Wilsonville selected Policy Confluence, Inc based on the following findings:

- 1) The City finds that ORS 279B.075(2)(a), "That the efficient utilization of existing goods requires acquiring compatible good or services," is met. The National Citizen Survey provides the City with a unique opportunity to consistently administer the survey and ask the same questions every other year. The National Research Center will compare our collected data to years past, since the data is compatible, allowing us to track our progress on important issues to the community.
- 2) The City finds that ORS 279B.075(2)(c), "That the good or services are for use in a pilot or an experimental project," is met. The NRC gathers information about citizen's perceptions about government service delivery as well as quality of life. They produce a consistent biennial survey with the ability to conduct empirical analysis.
- 3) The City finds that ORS 279B.075(2)(d), "Other findings that support the conclusion that the goods or services are available from only one source," is met. NRC is the only company that works with the ICMA to survey local jurisdictions throughout the country and NRC has historically been the only company to provide this service to the City.

The National Research Center's National Citizen Survey will be conducted in 2024. The City has used the National Research Center to conduct these community opinion surveys since 2012.

Any Affected Person, as defined in OAR 137-047-0100(2), may protest the City of Wilsonville's determination within seven (7) calendar days of this notice (November 17, 2023), in accordance with OAR 137-047-0710.
