Dear City of Wilsonville,

I appreciate that your city is looking into the planned runway improvement at Aurora State Airport and taking the time you need for public input.

This is and has been a long needed runway improvement. To me, the heart of the extension is runway safety. Start/Stop distance is important to all aircraft when an emergency occurs during take-off.

Please register my/our strong support for this runway lengthening and for the substantial increase in safety it will provide to the aircraft operating off the Aurora Airport and to the surrounding areas.

Thank you.
