Summer 2020 Protocol Levels and Policies in Response to COVID-19

“Our Plan to Ensure a Safe, Fun Summer for our Participants Across the Country”

Based on state and local guidelines, Skyhawks summer camp programs will operate under one of the following four protocols in each region. Listed policies and procedures will be implemented in all regions. As local guidelines on social distancing, gathering size limits and youth activities change, the protocol level in an area may change accordingly. All programs will be run either outdoors or with strict gathering size limits indoors based on facility size. While this summer will be run differently than our traditional camp season, our goal is to provide a fun, skill-building experience for each child that improves their confidence and instills a passion for an active lifestyle. More than ever, safety is our top priority this summer! The Skyhawks team will strive to make the best decisions based on the unique conditions and guidelines in each community we serve.

Summer 2020 Camp Program Protocol Levels 1 – 4

**Every region should fall within one of these protocol levels with adjustments based on state and local guidelines*

Level 1 – Typical Camp Format with New Policies

Camps run normally with typical participant to coach ratios (8:1, 10:1 or 12:1 depending on the program) and different groups may interact with one another in scrimmages and camp games. The attached guidelines and policies will be implemented to limit contact and the spread of germs.

Level 2 – Isolated Groups with Participant Interaction

Small groups of 10 or less each led by an instructor with loose restrictions on social distancing. Children may participate in drills, play scrimmages and engage in camp games within the small groups of 10 or less. All camp groups will be led by a different coach and maintain a distance of at least 15-feet to avoid large gathering sizes. The attached guidelines and policies will be strictly enforced to limit contact and the spread of germs. Equipment will be sanitized after each session by program staff. Program staff will wear cloth face coverings when a minimum of 6-feet of social distancing is not possible. Staff may be required to wear face coverings at all times based on direction from local Skyhawks management.

Level 3 – Isolated Groups with Limited Participant Interaction and Modified Curriculum

Small groups of 10 or less each lead by an instructor with strict restrictions on social distancing. Children will remain 6-feet apart within small groups and will participate in modified drills and games to ensure social distancing within small groups of 10 or less. All camp groups will be led by a different coach and maintain a distance of at least 15-feet to avoid large gathering sizes. The attached guidelines and policies will be strictly enforced to limit contact and the spread of germs. Equipment and facility contact surfaces will be sanitized after each session by program staff. Program staff are required to wear cloth face coverings at all times. Program participants may need to have their temperatures taken upon arrival based on direction from local Skyhawks management.

Level 4 – Virtual Programming Only

No in-person programming will be offered. Instead, Skyhawks local and corporate representatives will work with local organizations to create virtual programming led by top Skyhawks instructors. Program types, formats and availability will vary by area.

Summer 2020 Camp Program Policies in Response to COVID-19

**These policies should be practiced at all Summer 2020 programs with adjustments based on state and local guidelines*

- Skyhawks will closely follow and monitor all CDC guidelines related to youth-specific activities and sports/camp-related policies.
- Skyhawks program staff, participants and any family members must not be or have been sick within the past 14-days. Any staff member or participant who does not comply will not be allowed at programs until the 14-day minimum has been reached.
- Programs will be run outdoors where possible with indoor locations being approved based on strict gathering size limits according to facility size. If a program is indoors, check-in/check-out procedures should happen outside.
- No contact check-in/check-out – Parents will check in their child from 6-feet away verbally acknowledging child's name for attendance purposes stating any special notes regarding allergies, approved pick-up contacts, health concerns, etc. Participant belongings shall be spaced 6-feet apart.
- First meeting parent orientation – Shall be conducted outside with parents following social distancing guidelines.
- Modified roster document – Roster packet will include: Program information, attendance sheet with child information and parent contact details, participant notes, staff/immediate family 14-day no-sickness acknowledgment, participant/immediate family 14-day no-sickness acknowledgment (verbally communicated/acknowledged)
- Strict hand washing practices – Before snack breaks and lunches children must wash hands for 20 seconds with soap and water or use a hand sanitizer that contains at least 60% alcohol. Skyhawks will provide hand sanitizer as an extra precaution (while supplies last), but we urge parents to provide their child with their own bottle which should not be shared with other participants
- Snack and Lunch Times – As normally practiced, sharing of food or drink is strictly forbidden. Snack and lunch time will be taken in groups and with social distancing based on guidelines presented in protocol levels 1-3 above.
- Face touching – Skyhawks staff will remind participants throughout each session not to touch their face, mouth or eyes. Participants will also be reminded to cover all coughs and sneezes with their elbow crease/forearm.
- Equipment – All equipment will be sanitized after each camp session and during sessions as needed.
- Peer and coach interaction – High fives, fist bumps, hugs and other peer-to-peer/coach-to-peer contact not allowed.
- The parent's role – In addition to a water bottle, snacks and lunch (full-day camps only) and sunscreen, parents should provide hand sanitizer (if available) and must provide a towel which will help in limiting facial touching.
- Facility requirements – All program facilities must have access to running water and soap. Facilities must be recently and regularly maintained by on-site maintenance staff to ensure a safe, clean environment for programs.
- At-Risk Groups – Persons who are older, pregnant, or who have underlying health conditions, including those with compromised immune systems or respiratory conditions like severe asthma, are at higher risk to develop complications from COVID-19. These individuals should not drop-off/pick-up participants, participate in programs or instruct programs.

Scenario Procedures: Staff or Participant Tests Positive for COVID-19

**Scenario procedures may vary depending on local, state and CDC guidelines*

1. If a staff member or participant tests positive for COVID-19 during a program, the program will immediately be cancelled and staff members, participants and partnering organizations will be notified. The local health department will be notified. All registered participants will receive a prorated credit to their customer account.
2. If made known to Skyhawks that a staff member or participant tests positive for COVID-19 within two weeks of completion of a program, staff members, participants and the partnering organization will be notified. The local health department will also be notified.
3. If a Skyhawks staff member tests positive for COVID-19, they will be placed in an inactive status until they are symptom free and 14 days have passed since their last symptom **or** they provide a doctor's note stating a negative test result.
4. If a Skyhawks staff member reports symptoms of COVID-19 (e.g., fever, cough, shortness of breath), they will be placed in an inactive status until at least 72 hours have passed since recovery defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms **and** at least 10 days have passed since symptoms first appeared.
